

Automatic Nesting

ProNest® optional module

Benefits:

- Increased material utilization
- Faster nesting

Description:

With Automatic Nesting, you'll be able to nest with the click of a button. Choose your preferred nesting strategy to control the balance between nesting speed and material utilization, or select "IntelliChoice" and ProNest will determine a strategy and nest for you. This is the latest in nesting technology, making it easy to achieve great results every time.

Parts are nested for maximum cutting efficiency and material utilization, without any operator intervention required.

Here is what people are saying about Automatic Nesting:

"Jobs that used to take as much as 8 hours to program on our old software now take 5 to 10 minutes using ProNest."

- Shep Brown, Creative Edge Master Shop

"Using ProNest we've experienced a savings of 5% across the board in material utilization. This translates to an annual savings of \$50,000 in material alone. The software has also helped us streamline our programming operation for an additional annual savings of \$31,000 in labor costs."

- Stacy Gatch, Construction Products, Inc.

Before Automatic Nesting

Estimated time to complete manually:
35 minutes

After Automatic Nesting

Estimated time to complete automatically:
13 seconds
